

AQUATIC PROGRAMS

Welcome to the Winter/Spring Session of the YMCA Aquatic Programs.

Registration deadline will be 2 days prior to session starting. If there are fewer than 3 children registered, class can be held only if the participants are willing to pay the semi-private fee. Whenever possible, classes will be combined to accommodate your preferred schedule. Students must have swim teacher's approval to move up to the next level. Classes are not pro-rated. Swim class make-ups are for medical reasons only.

Special Note about NEW LESSON FORMAT. We are excited to announce the new updated Y-USA National Swim Lesson Program. As you will notice the names of the levels have changed, to find out what STAGE your child should be in please check our website or call the front desk or our Aquatics department.

PARENT/TODDLER LESSONS (Ages 6-36 months)

Location: Instructional & Lap Pools
Water comfort and swimming skills taught through a variety of fun activities. Parents and children will be guided through introductory swimming skills and safety precautions preparing them for classes without the aid of a parent.

YMCA Mission Statement:

To put Christian principles into practice through programs that build a healthy spirit, mind and body for all.

PRESCHOOL SWIM LESSONS (Ages 3-5 years)

Location: Instructional & Lap Pools - This program offers children their first experience in the pool without a parent, made possible through a variety of fun activities & games. Classes provide a step-by-step progression of swimming and water safety without the aid of a flotation device, designed to adequately prepare children for the youth lesson program.

Student/Instructor ratio will not exceed 6 to 1. All preschool classes are 30 minutes in length.

SCHOOL AGE SWIM LESSONS (Ages 6-12 years)

Location: Lap Pool - Children learn the fundamentals of swimming and water safety with increased stroke development and endurance as levels increase. Classes will not exceed an 8 to 1 student/instructor ratio. All classes are 45 minutes in length and taught in the Lap Pool. The prerequisite for each level is successful demonstration of the skills taught in the preceding level. Beginners start at Stage 1, which has no prerequisite.

STAGE DESCRIPTIONS

SWIM STARTERS

Accompanied by a parent, infants and toddlers learn to be comfortable in the water and develop swim readiness skills through fun and confidence-building experiences, while parents learn about water safety, drowning prevention, and the importance of supervision.

A / WATER DISCOVERY

Parents accompany children in stage A, which introduces infants and toddlers to the aquatic environment through exploration and encourages them to enjoy themselves while learning about the water.

B / WATER EXPLORATION

In stage B, parents work with their children to explore body positions, floating, blowing bubbles, and fundamental safety and aquatic skills.

1 / WATER ACCLIMATION

Students develop comfort with underwater exploration and learn to safely exit in the event of falling into a body of water in stage 1. This stage lays the foundation that allows for a student's future progress in swimming.

2 / WATER MOVEMENT

In stage 2, students focus on body position and control, directional change, and forward movement in the water while also continuing to practice how to safely exit in the event of falling into a body of water.

3 / WATER STAMINA

In stage 3, students learn how to swim to safety from a longer distance than in previous stages in the event of falling into a body of water. This stage also introduces rhythmic breathing and integrated arm and leg action.

SWIM BASICS

Students learn personal water safety and achieve basic swimming competency by learning two benchmark skills:

- Swim, float, swim—sequencing front glide, roll, back float, roll, front glide, and exit
- Jump, push, turn, grab

4 / STROKE INTRODUCTION

Students in stage 4 develop stroke technique in front crawl and back crawl and learn the breaststroke kick and butterfly kick. Water safety is reinforced through treading water and elementary backstroke.

5 / STROKE DEVELOPMENT

Students in stage 5 work on stroke technique and learn all major competitive strokes. The emphasis on water safety continues through treading water and sidestroke.

6 / STROKE MECHANICS

In stage 6, students refine stroke technique on all major competitive strokes, learn about competitive swimming, and discover how to incorporate swimming into a healthy lifestyle.

SWIM STROKES

Having mastered the fundamentals, students learn additional water safety skills and build stroke technique, developing skills that prevent chronic disease, increase social-emotional and cognitive well-being, and foster a lifetime of physical activity.
